DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 9-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Regarding claim 9, the phrase "or the like" (see page 10, last line of the pre-amendment B) renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "or the like"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).
4. Regarding claim 9, see the sixth line from the bottom of page 12 of the pre-amendment B where some words were overtyped with others, making that part of claim 9 illegible.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hughes (3,307,113) teaches a multipass nonregenerating laser amplifier crystal; Hagen (4,156,852) teaches a multipass laser amplification near-field far-field optical separation; Robbins (4,528,671) teaches a multiple host face-pumped laser; Byer (4,555,786) teaches a high power solid state laser; laser apparatus with a multipass resonator; Miller et al (5,285,310) teaches a high power regenerative laser amplifier;
